

The In and Out of ADS-B

Presentation will be about what ADS-B is, how it works, and what is required to meet the FAA requirements. There is more than one way to be compliant with this requirement. Which is right for you and your airplane? Why ADS-B such as available with Stratus or similar devices may not be giving you the information you think you should be receiving. This presentation will follow the monthly meeting of the Paragould Pilots' Association which begins at 0700 PM.

Directions: The safety meeting will be held in the FBO at Paragould Airport, Kirk Field.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
